

Vigoral Mol®

ENHANCER OF SOIL STRUCTURE

Benefits of its use

VIGORAL MOL is based on organic matter from natural sources, namely sugar beet vinasse and its fermentations. It improves the physical-chemical properties by easing the cationic exchange and potassium, phosphorous and microelements availability.

VIGORAL MOL also increases the total amount and availability of nitrogen. Organic matter stimulates the development of edaphic microorganisms, leading to a better and stronger development of the root system.

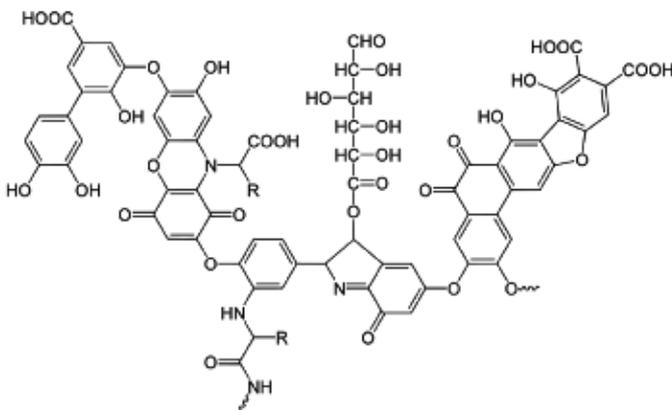

VIGORAL MOL provides humic extract and a high content of potassium to soils, leading to better fruit development.

Composition

(%w/w)

Organic matter	35,00
Total nitrogen	2,00
Organic nitrogen	1,80
Organic carbon	15,00
Total humic extract	18,00
Potassium (K ₂ O)	4,00

VIGORAL MOL contains humic extract

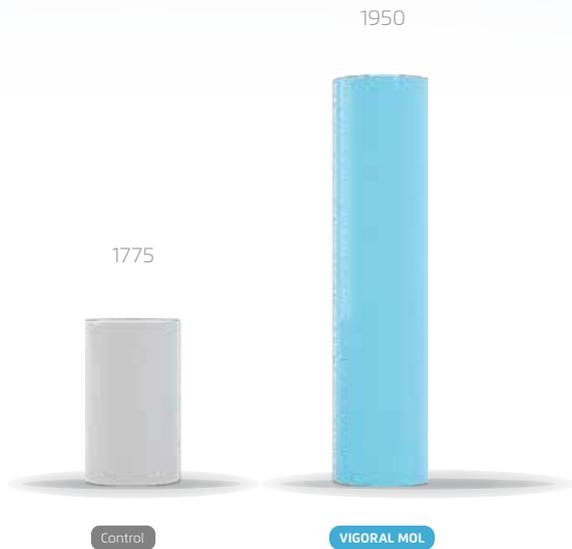

Olive trees, Spain

Efficacy Trials

YIELD, tomato / VIGORAL MOL, (x5) (Cataluña, Spain).
YIELD g Tomato/Plant

Vineyard, Spain

Application System

Applications of **VIGORAL MOL** improve soil structure and stimulate the development of edaphic microorganisms, leading to a healthier root system, and better yield at harvest. **VIGORAL MOL** can be applied to any crop: ornamentals, fruit orchards, vegetables and turfs.

Apply **VIGORAL MOL** diluted in irrigation water. It also could be applied by foliar spraying.

Stability and Storage

VIGORAL MOL is stable during at least 3 years from the manufacture date.

Keep in a fresh and ventilated place with temperatures below 50°C.

Do not store for prolonged periods under direct sunlight.

Keep away from children.

Do not eat, drink or smoke while handling this product.

Dosages

CROP	APPLICATIONS	DOSAGE
Vegetables	6	10 - 15
Fruit trees	4	20 - 25
Olive trees	4	20 - 25
Vines	3	25 - 30
Industrial crops	2	20
Turf	2 - 3	20 - 25
Ornamentals	3	10

Compatibility

For mixing with any other product conduct a test in a small volume to assess compatibility.

If you have any doubt, please contact your local dealer for technical advice.
